## EDUCATION

### Osmania University

Master of Computer Applications - MCA | GPA: 7.9/10

Hyderabad, TS

Graduation Date: Aug 2022

### Telangana University

Bachelor of science (MPCs) | GPA: 8.1/10

Nizamabad, TS

Graduation Date: July 2020

## SKILLS

**Programming Languages:** PYTHON | JAVA | JAVASCRIPT

**Development tools and frameworks:** Django | React | Node. Js

**Web Development:** HTML5 | CSS | Bootstrap | jQuery

**Database:** Oracle | MySQL | PostgreSQL |

**Soft skills:** Communication | Time management | Collaboration | Adaptability | Problem solving

## WORK EXPERIENCE

### Indiatech IT Solutions pvt ltd

Hyderabad, TS

#### Junior Software Developer | [Link](#)

July 2022 - August 2023

- Collaborated with cross-functional teams to contribute to the full software development life cycle, from requirements analysis to testing and deployment.
- Assisted in optimizing database performance by writing efficient SQL queries, improving application efficiency and response times.
- Actively participated in code reviews, providing valuable feedback to enhance code quality and ensure adherence to best practices.

### Manac Infotech

Hyderabad, TS

#### Web development intern | [Link](#)

Jan 2022 - May 2023

- Designed and implemented responsive web pages using HTML, CSS, and JavaScript, resulting in a 20% increase in website traffic and user engagement.
- Collaborated with a team of developers to troubleshoot and debug website issues, reducing website's downtime by 25%.
- Conducted thorough testing and analysis of website functionality, resulting in a 15% decrease in page load times and an improved user experience.

## PROJECT EXPERIENCE

### E-commerce Website Project | [Live](#)

- Developed a fully functional e-commerce website, "RED Store" as a showcase project to demonstrate proficiency in web development using HTML, CSS, and JavaScript.
- Implemented a user-friendly and responsive interface to enhance the shopping experience for customers across various devices, resulting in increased user engagement and higher conversion rates.
- Implemented digital marketing strategies, leading to higher website traffic and improved brand awareness.

### Django-Ytubers Project | [Source Code](#)

- Developed a fully functional Django-based video sharing website, including user authentication and authorization, using Python and HTML/CSS.
- Collaborated with a team of developers to implement site features and ensure seamless user experience.

### To-Do List | [Live](#)

- Developed TO-DO list app using HTML, CSS, and JavaScript with optimized user interface and experience.
- Conducted testing and debugging for functional compatibility across various devices and browsers.
- Designed user-friendly interface with practical features to improve productivity, including drag-and-drop functionality and due date reminders.

### Quiz App | [Live](#)

- Designed and developed a responsive quiz application from scratch using HTML, CSS, and Javascript that achieved a 95% user satisfaction.
- Utilized Bootstrap to ensure a consistent layout across different screen sizes and devices, resulting in a 25% increase in mobile engagement.

## Academic Project

### Secure multi - part file transfer | *Major* | [Source Code](#)

- Designed and implemented a secure multipart file transfer system that successfully addressed identified vulnerabilities in traditional file transfer protocols, resulting in a 75% reduction in potential security breaches.
- Developed a user-friendly interface using Java Swing and integrated the system with a cloud storage platform, resulting in a 30% increase in user productivity.
- Conducted thorough testing and debugging of the system using NetBeans and other debugging tools, ensuring that the system met all quality standards and had zero critical issues at launch.

## Academic Project

### Mobile payment system | *Mini* | [Source Code](#)

- Developed a secure mobile payment system using Java, Spring, and Hibernate.
- Conducted thorough testing and debugging using JUnit and Agile project management methodologies.
- Gained experience in Java development, mobile application development, secure programming practices, and project management.
- Presented the project to a panel of faculty members and peers, receiving high praise for the innovative design and functionality.

## ACCOMPLISHMENTS

Technology Virtual Experience Program-Deloitte | [Link](#)

Nov 2022 - Nov 2022

100 Days of code: The complete python pro bootcamp for 2023-Udemy | [Link](#)

Feb 2023 - Apr 2023
